

**How to make a den for your pet to  
hide in around fireworks night**

Making a den for your pet on and around Guy Fawkes night or any other time there are fireworks is an excellent way to give them a safe place to hide and feel secure.

Check below to ensure that your den has everything it needs!

- Choose a quiet area of the house, away from any windows if possible, where you can place a crate or covered bed for your pet.
- Close the curtains and windows in the room.
- Cover your pet's crate with a blanket, creating a covered 'den'.
- Place comfy blankets and/or a bed in the crate.
- Spray Adaptil or Pet Remedy on the bedding in the den.
- Choose some of your pet's favourite toys to place in the den.
- Put some special treats your pet likes in as well.
- Be sure that your pet has access to you (the owner) if they want cuddles!
- Use an Adaptil plug-in or Pet Remedy diffuser in the room where the den is.

**Adaptil and Pet Remedy are products designed to help calm your pet.**

**You can get these from the practice.**
